Getting to Know Your Phone

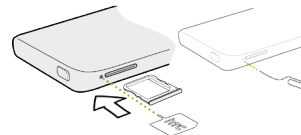

For more information, visit att.com/DeviceSupport

Setting up Your Phone

Insert the microSIM card

- ① To eject the microSIM card tray, insert a small bent paperclip or the microSIM eject pin into the small hole next to the tray.

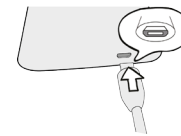

- ② Pull the microSIM card tray out, and place the microSIM card into the tray.

- ③ Insert the microSIM card tray into its slot.

Charge the phone

- ① Connect the USB cable to your phone.

- ② Plug in the power adapter to an electrical outlet to start charging.

Important: Please use the power adapter and USB cable that came in the box for optimum battery performance.

Phone Basics

Get started

Press and hold the power button on the top panel to turn the phone on or off.

To lock, briefly press the power button.

To unlock, press the power button, then pull the lock up.

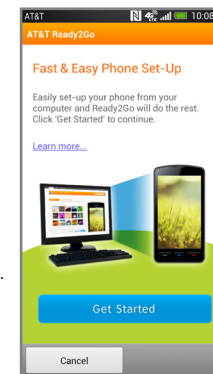

Ready2Go

AT&T Ready2Go helps you set up your device using your computer.

- Set up email, contacts, and Wi-Fi.
- Customize your home screen, wallpaper, ringtones, and more.

When you first turn on the phone, you'll see the AT&T Ready2Go wizard.

- ① Tap **Get Started**. You'll see a web address and code.
- ② On your computer's browser, go to the web page.
- ③ Enter the code from your phone on the web page.
- ④ Complete the steps to send your personalization options to your phone.

Find More Information

On the Web

- Interactive web tutorials are available at att.com/Tutorials. Select Manufacturer: **HTC** and Model: **HTC One** from the drop down menus. Or click on the bookmark in your phone's browser.
- Detailed support information is available at att.com/DeviceSupport.
- For information about your wireless account or network, visit att.com/Wireless.
- Learn how to add a password on your device to protect your privacy, as well as report a lost or stolen phone at att.com/StolenPhone.

On the Phone

Call AT&T Customer Care at 1-800-331-0500 or dial 611 from any AT&T mobile phone.

Find Accessories

Accessories for your smartphone are available at att.com/WirelessAccessories or visit your local AT&T store.

HTC Media Link HD

Simply connect your device to your home network and easily share media on DLNA® compliant devices (sold separately).

Touch Screen and Navigation

Navigate your phone

- Use your fingertip to lightly tap the screen and select options.
- Use quick flicks of your finger to scroll up/down and left/right.
- Back Key:** Returns to previous screen.
- Home Key:** Takes you to the main Home screen.
- All Apps:** Shows all your apps in one place.
- Feeds & widgets:** Shows a stream of your favorite content, and as well as Home screen widgets.
- Notifications bar:** Shows you timely information, like new messages, social network notifications, missed calls, and calendar reminders. Slide down the bar with your finger to see full details.

Slide your finger horizontally to the left or right and you'll discover more space for adding icons, widgets, and more.

Contacts and Phone Calls

Add a new contact

The Contacts app combines your contacts from accounts like Google®, Facebook and Microsoft® Exchange ActiveSync®. You can manually add contacts as well.

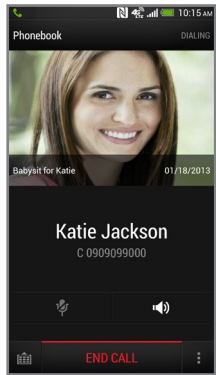

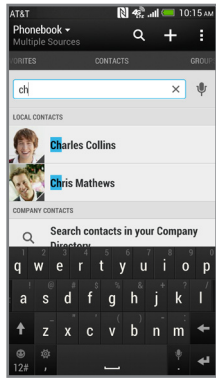

- Open the **Contacts** app.
- Tap **+** to add a new contact.
- In the **Name** field, enter the contact name.
- Select the Contact type, for example Google.
- Enter the contact information.
- Tap **Save**.

Make a phone call

- Open the **Phone** app.
- Enter a phone number or tap a contact from the matched suggestions.
- Tap **Call**.
- To hang up, tap **End Call**.

Check your voicemail messages

- Open the **Phone** app.
- Press and hold the number 1 key on the keypad.
- Enter your passcode, if you use one.
- Follow the voice prompts.

Text Messaging

Send a text message

- Open the **Messages** app.
- Tap **+** to compose a new message.
- Enter a number or tap to browse your contacts.
- Tap the **Add text** field to enter your message.
- Tap . Or press to save the message as a draft.

Attach a picture or video

- While composing a text message, tap .
- Tap **Picture** or **Video**.
- Tap **Gallery** to choose a picture or video from an album, and then tap an item to attach it.
- Tap .

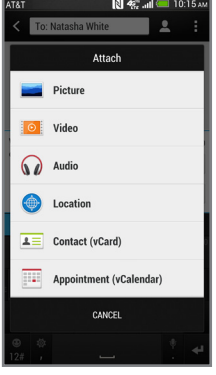

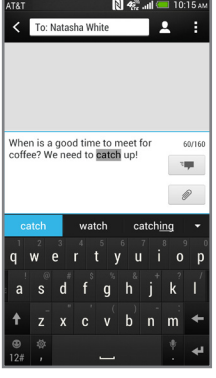

AT&T Messages

View text messages, listen to voicemails, and reply using your phone, tablet, or computer.

- Open the **Messages** app from the Operator folder shortcut in All apps screen.
- Enter your 10 digit mobile number.
- Follow the instructions to set up your account.

Please don't text and drive.

Messaging rates apply.

Personalization

Customize your phone

Customize your phone with wallpapers, widgets, ringtones, and more.

- 1 Slide the Notifications panel open, and then tap > **Personalize** to access customization options.
- 2 Choose what you want to change, such as display or sound preferences.
- 3 Select from the options, and then tap **Apply**.

Manage Home screens

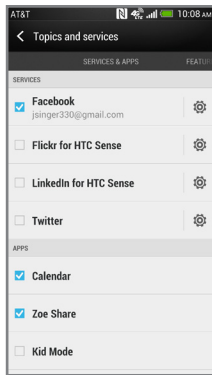

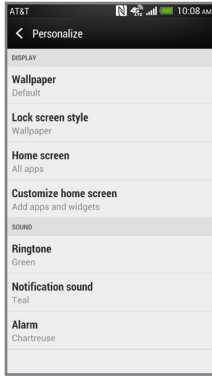

To add widgets and shortcuts to Home screen panels, slide the Notifications panel open, and then tap > **Personalize** > **Home screen**. Choose a widget or a shortcut.

To move or remove Home screen items, press and hold and then drag the item to a new location or to **Remove** at the top of the screen.

Get updates in Feeds view

Easily access content from popular websites and social networks right on the Home screen.

- 1 On Feeds view, tap > **Topics and services**.
- 2 Swipe left or right to see the categories.
- 3 Tap the options that you want to show on the feed.

Internet

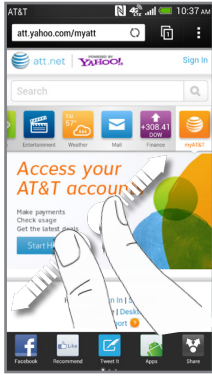

Browse the Web

- 1 Open the **Internet** app.
- 2 Use your fingers to pinch or spread the screen to zoom in and out.
- 3 To visit another website, tap the address bar, enter the web address, and then tap .
- 4 To open more browser windows, tap > **New tab**.

Use the Browser Bar

Access Facebook and news feeds, create bookmarks, share content, and more.

- 1 To reveal the Browser Bar, swipe up from the bottom of the browser screen.
- 2 To add a button shortcut, tap **Add More** and select a choice or create one of your own.
- 3 For more information, tap **Settings** > **Tutorial**. You can also disable the Browser Bar in Settings.

Camera

Take a picture

- 1 Open the **Camera** app.
- 2 To zoom in and out, slide your finger on the zoom bar.
- 3 Tap to take the picture.

Record a video

- 1 Open the **Camera** app.
- 2 Tap to start recording video.
- 3 Slide your finger on the zoom bar to zoom in and out while recording.
- 4 To take a photo while recording, tap .
- 5 Tap to stop recording.

Send a picture or video*

- 1 Open the **Gallery** app.
- 2 Browse an album, and then tap a picture or a video.
- 3 Tap **Share** to share via HTC Share, Bluetooth®, send by email, send as a message, or upload to a social network.

You'll find the following controls on the Viewfinder screen:

	Gallery shortcut
	Camera shutter
	Video recorder
	Camera effects
	Camera options
	HTC Zoe™
	Flash level

* Data charges may apply.

Music and Google Play™ Store

Listen to music

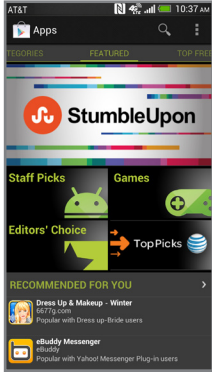

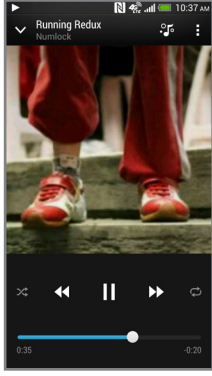

- 1 Open the **Music** app.
- 2 Tap to browse a category, such as **Artists** or **Albums**.
- 3 While browsing your music collection, tap a song to play it.
- 4 Tap the onscreen icons to control music playback, repeat songs, and more.

Find and install an app

Google Play Store is the place to go to find a variety of free and paid apps and more for your phone.

- 1 Open the **Play Store** app.
- 2 Browse by featured apps or by category, or search for the app you want.
- 3 Tap the app to select it.
- 4 To download or purchase, tap **Install** (for free apps) or the price button (for paid apps).
- 5 If you agree to the conditions, tap **Accept & download** or **Accept & buy**.

A Google Wallet™ payment method is required to purchase a paid app. You need to associate a valid credit card or debit card to your Google Wallet account to purchase a paid app.

Bluetooth®, Wi-Fi® and Mobile Hotspot

Pair with another Bluetooth device

- 1 Slide the Notifications panel open, and then tap .
- 2 Under **Wireless & networks**, turn on Bluetooth using the **On/Off** option.
- 3 Tap **Bluetooth**, and then tap **Scan for devices**.
- 4 Tap an available device to pair.

Connect to a Wi-Fi network

- 1 Slide the Notifications panel open, and then tap .
- 2 Under **Wireless & networks**, turn on Wi-Fi using the **On/Off** option.
- 3 Tap **Wi-Fi**, and then choose a Wi-Fi network to connect to (secured networks require a passkey).

Share your connection (Tethering and Mobile Hotspot*)

- To use tethering, connect the device you want to tether to your phone with a USB cable. Slide the Notifications panel open, and then tap . Under **Wireless & networks**, tap **More > Mobile network sharing**. Tap **USB network setting**, and then select **USB tethering**.
- To enable a portable hotspot, slide the Notifications panel open, and then tap . Under **Wireless & networks**, tap **More > Mobile network sharing**. Select **Portable Wi-Fi hotspot**. Set a password upon first use.

* Data charges may apply.

NFC

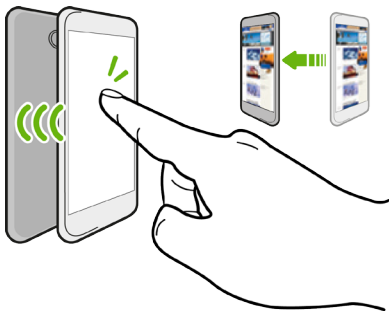

With the built-in NFC (near field communication), you can share content to someone's mobile device in an instant. Beam a webpage, contact information, and more. Just hold both devices back to back.

Turn on NFC

- 1 Slide the Notifications panel open, and then tap .
- 2 Under **Wireless & networks**, tap **More**.
- 3 Make sure that the **NFC** option is turned on.

Share content with NFC

- 1 Make sure that both devices have NFC turned on.
- 2 While viewing the content that you want to share, hold your device and the other device back to back.
When the devices connect, you'll hear a sound and both devices will vibrate slightly.
- 3 Tap the screen. The shared content appears on the recipient's screen.

Mail and Calendar

If you signed in to your Google Account when you first set up your phone, you'll be able to send and receive email messages on the **Gmail™** app.

Send an email

- 1 Open the **Mail** app.
- 2 Set up the email account that you want to use.
- 3 On the email account inbox, tap **+**.
- 4 Fill in one or more recipients.
- 5 Enter the subject and your message.
- 6 To add an attachment, tap .
- 7 Tap . Or to send it later, tap  > **Save**.

Set a new appointment

Use the Calendar app to schedule your meetings and events. Sign in to your Google, Facebook, or Exchange ActiveSync accounts to see your calendars from these accounts.

- 1 Open the **Calendar** app.
- 2 On any Calendar view, tap **+**.
- 3 If you have more than one calendar, select the calendar in which to add the event.
- 4 To invite people to your event, tap  and then choose from your contacts.
- 5 Enter the event details, such as the date and time.
- 6 Tap **Save**.

Network Notifications

Your 4G LTE™ wireless device will indicate which of AT&T's wireless networks you are connected to. A network indicator does not necessarily mean that you will experience any particular upload or download data speeds.

Connected to AT&T's 4G LTE network.

* Connected to AT&T's HSPA+ network. AT&T's HSPA+ network is capable of delivering 4G speeds when combined with enhanced backhaul. 4G availability is increasing with ongoing backhaul deployment.

Connected to AT&T's EDGE/2G network.

Actual data upload and download speeds depend on various factors, including the device, network utilization, file characteristics, terrain, etc. Learn more at: wireless.att.com/learn/articles-resources/wireless-terms.jsp, your AT&T Wireless Customer Agreement, Section 3.2 Where and How Does AT&T Service Work?

* Limited 4G LTE availability in select markets. 4G speeds delivered by LTE, or HSPA+ with enhanced backhaul, where available. Mobile broadband service limited to AT&T 4G and 4G LTE coverage areas. Compatible device and data plan required. LTE is a trademark of ETSI. Learn more at att.com/network.
